Unleashing Potential Inspiring Excellence

Medical College
Prospectus 2025 - 2026

From the desk of Our President

At **IQ City Knowledge & Health Campus**, we envisioned an institution where compassion meets competence, and where the noble art of healing is taught with reverence, responsibility, and resolve. Our mission is to make quality, patient-centric healthcare accessible to all, while shaping the next generation of medical professionals—individuals who will not only heal with knowledge, but also serve with empathy and grace. We believe that the essence of true medical education lies not merely in textbooks or lecture halls, but in the shaping of character, the nurturing of integrity, and the awakening of a lifelong commitment to the service of humanity. Our world-class infrastructure, dedicated faculty, and vibrant academic environment provide a sanctuary where young minds are moulded into thoughtful, ethical, and highly skilled doctors.

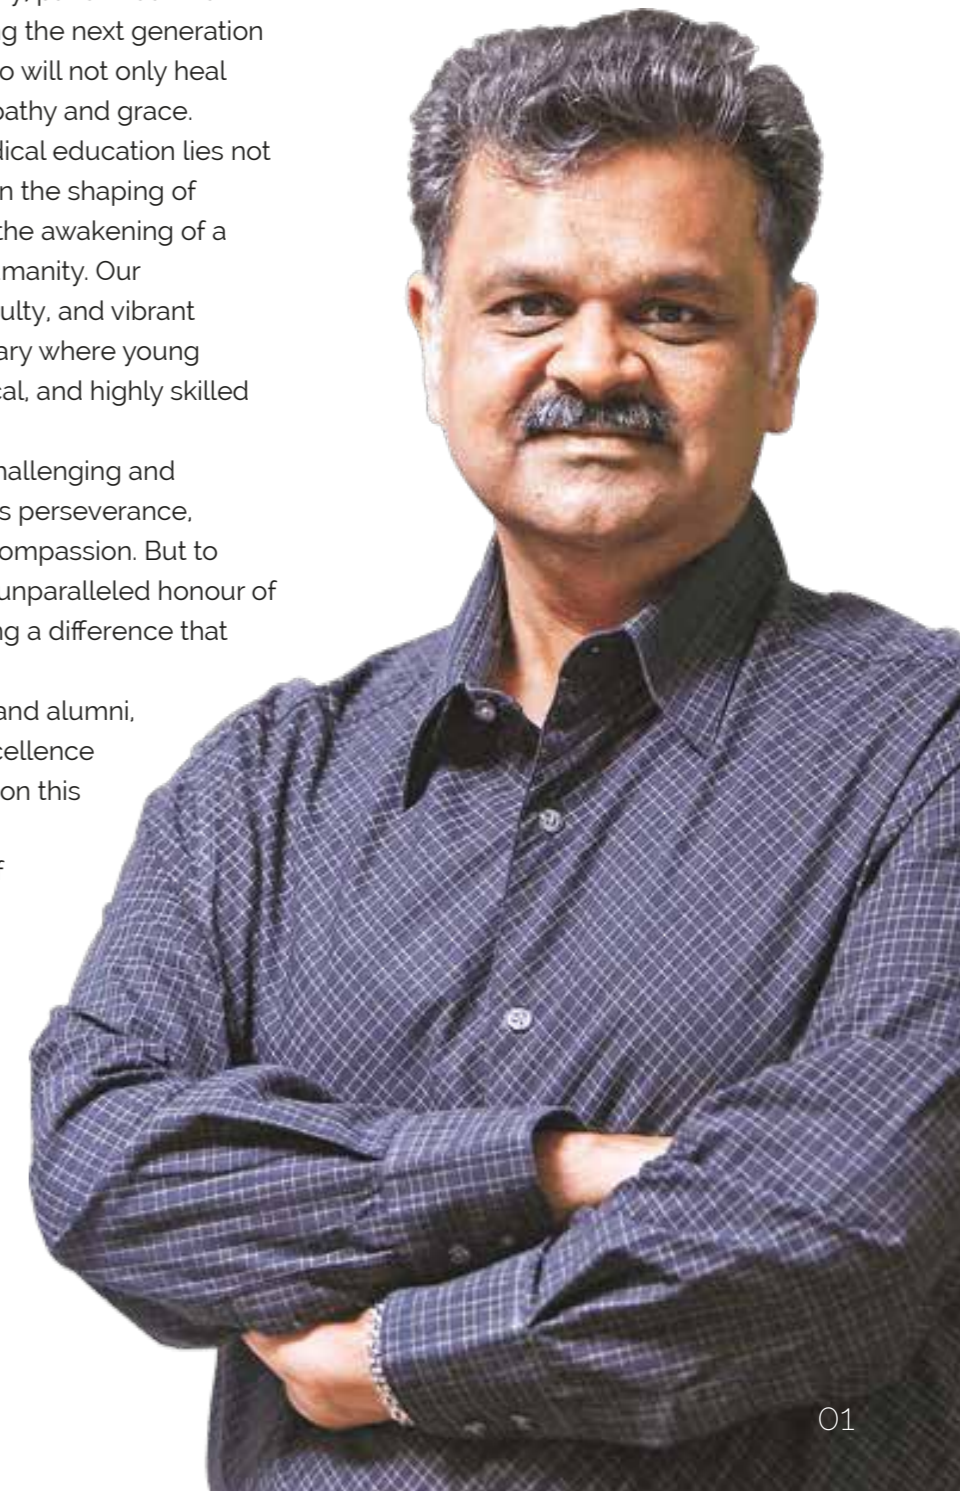

The path to becoming a doctor is both challenging and profoundly rewarding. It demands tireless perseverance, emotional resilience, and a heart full of compassion. But to those who choose this path, it offers the unparalleled honour of touching lives, restoring hope, and making a difference that echoes through generations.

We take immense pride in our students and alumni, who continue to stand as beacons of excellence in the world of medicine. As you embark on this noble journey, I urge you to walk it with humility, dedication, and a deep sense of purpose. The world needs more healers—those who listen, who understand, and who care.

May your time at IQ City be the beginning of a lifelong journey of learning, service, and compassion.

Sanjay Jhun Jhunwala

Sanjay Jhunjunwala
President

The **Mani Group** ventured into medical education in 2013. The IQ City Foundation set up the IQ City Knowledge & Health Campus across a sprawling 50-acre picturesque location in Durgapur. This was driven by a vision to empower today's youth with the skills and expertise needed to become successful medical practitioners of tomorrow.

In line with this vision, students from IQ City Medical College, the IQ City Institute of Nursing Sciences, and the IQ City Institute of Pharmaceutical Sciences receive world-class training to diagnose, treat, and care for patients.

The college currently offers MBBS and MD/MS courses. It also provides B.Sc. and M.Sc. degrees in various health science disciplines, GNM, B.Sc. and M.Sc. in Nursing Sciences, and B.Pharm in Pharmaceutical Sciences.

Quality of Life

IQ City Medical College aims to improve the quality of life by providing state-of-the-art healthcare facilities and services, combined with global knowledge, best practices, education, and robust research infrastructure and systems.

We endeavour to:

- Offer cutting-edge medical education, healthcare sciences, and technology.
- Exceed stakeholders' expectations and strive for excellence.
- Combine competence with commitment and compassion.
- Deliver comprehensive knowledge and a hands-on learning experience in a superspecialty clinical environment.
- Educate minds through outstanding faculty, led by experienced department heads.
- Foster research and innovation for a better future.
- Raise standards by competing, connecting, and collaborating globally.

IQ City Medical College

IQ City Medical College is an unaided private medical institute with world-class infrastructure that specialises in holistic medical education. Its goal is to nurture well-trained, idealistic, and humane doctors who will serve the nation with dedication.

The teaching hospital has 1,200 beds, and its extracurricular multispecialty departments train students to manage both common and complex ailments, while honing their clinical skills and experience.

The 50-acre Knowledge & Health Campus is home to IQ City Medical College, the Teaching Hospital, the IQ City Institute of Nursing Sciences, and the IQ City Institute of Pharmaceutical Sciences. Plans are underway to establish a College of Hospital Management, a College of Dentistry, a College of Allied Health Sciences, and an international-standard school.

“EDUCATION ISN'T PREPARATION FOR
LIFE, EDUCATION IS LIFE ITSELF”

-JOHN DEWEY

FROM THE PRINCIPAL'S DESK

Dear Medical Students,

Welcome to the exciting and transformative journey that lies ahead of you! It is with great pride and enthusiasm that I extend a warm welcome to each of you as you embark on the noble path of becoming a healthcare professional. You are not just entering a profession; you are becoming a part of a legacy of healing, compassion, and service to humanity. You are about to embark on a path that will challenge and refine your intellect, shape your character, and prepare you to make a lasting impact on the lives of others.

Welcome to the beginning!

Medicine is a calling—a vocation that demands not only intellectual rigor but also immense responsibility, empathy, compassion, integrity, humility, resilience, and a deep commitment to lifelong learning, but the rewards are beyond measure. The opportunity to make a difference in someone's life, to offer hope, and to alleviate suffering is a privilege that few professions can offer. Here, you are not just learning concepts or theories; you are learning how to save lives and bring hope to the vulnerable.

Remember that the pursuit of knowledge is not just for your own growth, but for the well-being of those you serve. You are shaping the future of healthcare, and it is a future that depends on your integrity, innovation, and care.

As you step into our institute, you are entering a place where you will be challenged, supported, and inspired to reach your full potential. You will also be inspired to cultivate the qualities that make a great physician: empathy, critical thinking, and a genuine desire to serve. In our esteemed faculty, updated curriculum, and state-of-the-art facilities, you will find an environment that fosters both academic excellence and personal growth.

I encourage you to make the most of every opportunity, learn from both your successes and challenges, and never lose sight of the core values of compassion and care. Together, let's strive to make the world a healthier, kinder place.

Key Messages:

- **Commit to Lifelong Learning:** Medicine is ever-evolving. Stay curious and never stop learning.
- **Compassion is Key:** Treat every patient with empathy, respect, and dignity. Medicine is as much about people as it is about science.
- **Never Stop Striving for Excellence:** The pursuit of excellence in medicine is continuous. Be relentless in your quest for knowledge, your compassion for others, and your commitment to delivering the best care.
- **Embrace Challenges:** The road ahead will be tough, but every challenge you face is an opportunity to grow, both as a student and as a future physician.
- **Collaborate and Support Each Other:** Medicine is a team effort. Lean on your peers and faculty, and always be ready to lend a helping hand.

Wishing you all success and fulfilment in your medical journey.

Warm regards,

Dr Neerja Shastri

Principal, IQ City Medical College & Hospital

Our Vision is to . . .

- Be a centre of excellence that provides competency-based medical education, high-quality medical care, and ethical research.
- Improve the quality of life of the population we serve.

Our Mission is to . . .

- Inculcate academic excellence, clinical competence, professionalism, and strong managerial and leadership qualities among students.
- Continually improve the quality of care for our patients.
- Promote clinical research and innovative community-based research for the betterment of society.

COURSES OFFERED AND DEPARTMENTS

Undergraduate and Post-Graduate

- MBBS
- MD/MS

Pre-Clinical Departments

- Anatomy
- Physiology
- Biochemistry

Para-Clinical Departments

- Pharmacology
- Forensic Medicine and Toxicology
- Microbiology
- Pathology

Clinical Departments

- Community Medicine
- General Medicine
- General Surgery
- Obstetrics and Gynaecology
- Paediatrics
- Orthopaedics
- Psychiatry
- Pulmonology
- Dermatology, Venereology and Leprology
- Dentistry
- ENT
- Ophthalmology
- Anaesthesiology
- Radiology
- Emergency Medicine

PRE-CLINICAL DEPARTMENTS

Anatomy

The department comprises a dynamic mix of experienced and enthusiastic faculty members. From the first year, they effectively instil in undergraduate students the right attitude towards learning Anatomy, one of the foundational sciences of the medical curriculum.

The department recognises the importance of theoretical knowledge supported by extensive practical skills. Equal emphasis is placed on regular lectures and practical classes.

Students are introduced to gross human anatomy through cadaveric dissection and demonstration of anatomical specimens in the well-organised departmental museum. They are also given daily, guided opportunities to observe the intricate details of cellular and tissue structures through microscopes during histology sessions.

Efforts are made to familiarise them with the interpretation of diagnostic tools, such as radiological imaging, and with the application of anatomical knowledge in clinical contexts, i.e., clinical anatomy.

The aim of the department is to enable budding medical professionals to visualise and comprehend the inner workings of the human body. It helps students gain a deeper understanding of human disorders, diseases, and disabilities. The department offers both undergraduate and postgraduate programmes.

Physiology

The Department of Physiology aims to impart strong theoretical knowledge and to develop practical skills in various areas, including hematology, amphibian experiments, and clinical examinations. These learning experiences are designed to enhance students' understanding of physiological concepts and to cultivate their ability to reason analytically. The department is committed to academic excellence in both undergraduate and postgraduate programmes. In addition to delivering the prescribed curriculum, it regularly conducts seminars, quizzes, and interactive learning sessions to enrich students' knowledge and critical thinking.

Biochemistry

Biochemistry is the science of the chemical basis of life. It encompasses broad domains such as cell biology, molecular biology, and molecular genetics.

Clinical Biochemistry plays a vital role in the diagnosis and monitoring of human diseases. A sound understanding of this subject is essential for interpreting disease mechanisms and supporting effective treatment strategies.

The Department of Biochemistry offers both undergraduate and postgraduate programmes, with a focus on integrating theoretical concepts with clinical application.

PARA-CLINICAL DEPARTMENTS

Pharmacology

Pharmacology bridges the gap from bench to bedside by equipping undergraduate MBBS students with a deep understanding of drugs, their mechanisms, and clinical applications. The subject plays a vital role in preparing students for safe and effective prescribing in medical practice.

The department is staffed by a team of experienced and dedicated faculty members. It is also equipped with a Computer-Assisted Learning (CAL) lab that enhances interactive and student-centered learning.

Under the guidance of expert teachers, students acquire both theoretical knowledge and hands-on skills necessary for clinical application. The department also offers postgraduate programmes in Pharmacology, encouraging research and advanced learning.

Forensic Medicine and Toxicology

The Department of Forensic Medicine and Toxicology equips students with the knowledge and skills required to address medico-legal responsibilities in both clinical and community settings.

It outlines the scope, responsibilities, and limitations of medico-legal practice, helping students understand their role in delivering justice and public service. The department fosters analytical reasoning, critical thinking, and a sound medico-legal perspective. Students are also introduced to autopsy procedures as part of their hands-on exposure during departmental training, enabling them to gain practical insight into post-mortem examinations and related legal processes.

Microbiology

The primary goal of teaching Microbiology is to enable medical students to diagnose, treat, and prevent infectious diseases in individuals and the community.

Microbiology is a dynamic and constantly evolving discipline that encompasses several important branches, including Bacteriology, Immunology, Virology, Parasitology, and Mycology.

The Department of Microbiology offers both undergraduate and postgraduate programmes, with a focus on applied learning, diagnostic techniques, and infection control practices essential to modern healthcare.

Pathology

The Department of Pathology is equipped with comprehensive facilities for Haematology, Cytopathology, Histopathology, and Immunohistochemistry. It also operates a 24/7 service laboratory within the hospital, providing essential diagnostic services such as routine clinical pathology, bone marrow studies, FNAC (US- and CT-guided), fluid cytology, pap smear cytology, and more.

The blood bank is equipped with state-of-the-art viral screening and component separation facilities. The department is staffed by dedicated faculty members who have received training at prestigious institutions across the country and offer expert consultation in their respective areas of specialization.

Faculty members are actively involved in research, including inter-institutional ICMR projects, ICMR-STC projects, and inter-departmental collaborations. The department has contributed approximately 50 research publications to renowned national and international journals.

It offers both undergraduate and postgraduate programmes, integrating academic excellence with hands-on diagnostic experience.

CLINICAL DEPARTMENTS

Community Medicine

Community Medicine is the branch of medicine which deals with preventing disease, promoting health and prolonging the life and well-being of population groups and communities by developing appropriate strategies based on the needs of the population.

Training in Community Medicine aims at nurturing physicians of tomorrow by enabling them to carry out healthcare at the primary, secondary and tertiary levels.

They are trained to develop public health policies, design, implement and evaluate health programmes and then apply them to address varied community health issues. Rural and urban exposure is given through outreach activities in rural and urban health training centres located within 30 kms of the Institute.

It offers both undergraduate and post-graduate programmes. The department of Community Medicine is the core department which facilitates Institutional Research of all disciplines.

General Medicine

Focus is the fundamental basis for the diagnosis and treatment of patients. This department works round-the-clock, taking care of both in-patients and out-patients and helps the students to develop their clinical acumen and logical thinking. The faculty members, besides practicing medicine, also conduct CME programmes, attend national and international conferences to update their knowledge and present their research papers.

General Surgery

This field has seen immense advancement in terms of cutting-edge techniques that make surgeries safe, painless and are associated with early mobilisation. The faculty consists of Professors, Associate Professors, Assistant Professors and Senior/Junior residents who all are trained to handle complicated cases. They provide round-the-clock emergency services, basic and advanced laparoscopic and open surgery of all types. They also have access to a well-equipped surgical ICU. The undergraduate teaching programme comprises lecture classes, clinical demonstration, live surgeries and a video library besides endoscopy, demonstrations, discussions, tutorials and practical classes.

Obstetrics and Gynaecology

Obstetrics is the medical specialty that deals with normal and complicated pregnancies. Gynaecology is the branch which deals with problems of the female reproductive organs in the non-pregnant state. The department of Obstetrics and Gynaecology at IQ City Medical College Hospital has a full-fledged team of a duty obstetrician, senior/junior residents and well-trained staff nurses who offer a full spectrum of Women's Healthcare Services and provide advanced treatment and care, from menarche (beginning of menstrual period) through pregnancy to menopause and beyond.

Students are involved in taking care of gynaecological problems, deliveries and so on.

Paediatrics

Paediatrics, in the undergraduate curriculum enables students to acquire the required knowledge and skills for dealing with major childhood health problems. It equips them to promote optimal growth and development in newborns and children. The department caters to children up to 18 years. Our highly qualified and dedicated teams of doctors provide state-of-the-art medical services with utmost sincerity and care. We provide out-patient services from 9 AM to 5 PM where along with the general clinics, we run speciality clinics like Neuro-Development Clinic, Asthma Clinic, High Risk Newborn Follow-up Clinic and Well-Baby Clinics. Indoor services include a general Paediatric ward, Paediatric Intensive Care Unit (PICU) and Neonatal Intensive Care UNIT (NICU). Students are exposed to unique learning opportunities through bedside clinical teaching, lectures and interactive problem-based learning sessions to acquire the knowledge and skills of paediatric medicine, neonatology and intensive care.

Orthopaedics

The Orthopaedic Surgery Department comprises Professors, Associate Professors, Assistant Professors and Senior/Junior Residents who handle all cases requiring spinal surgery and joint replacement arthroscopic surgery. It also offers Physiotherapy and Paramedical training. The undergraduate teaching programme includes clinical demonstration, discussion, tutorials, practical classes and exposure to management of common orthopaedic ailments including trauma.

Psychiatry

The main objective of the department of Psychiatry is to reduce downfalls in mental health through treatment, research and training, and to promote mental positivity. We hope to enhance public awareness about mental health and eliminate the stigma attached to psychiatric disorders. Pharmacological as well as non-pharmacological management of the patient is practiced with modern treatment methods. We also have speciality services in Deaddiction, Child and Adolescent Mental Health, Perinatal Mental Health and Geriatric Mental Health. Academic activities span academic rounds, teaching programmes, research activities, lectures and ward case discussions. We also liaise with other departments for the management of psychological problems in medically ill patients.

Pulmonology

Pulmonary medicine is a branch of medicine that deals with the diseases of chest and the respiratory system like Asthma, Pneumonia, COPD, Allergic Rhinitis, Interstitial Lung Diseases, Lung Cancer and so on. The Department has a Functional Respiratory Medicine Ward along with Respiratory Intensive Care Unit with round-the-clock specialist care. It also has latest equipment like video Bronchoscope, Semi-Rigid Thoracoscopy for advanced diagnostic and therapeutic modalities with certified interventional pulmonologists of repute. The department organises various respiratory health related awareness programmes at the state, national and international levels. The undergraduate teaching programme takes the form of regular bedside clinics where students are exposed to problem-oriented learning and development of clinical skills and observation.

Dermatology, Venereology and Leprology

Skin is the largest organ of the body and has an important relation with the mental and physical well-being. The department of Dermatology, Venereology and Leprosy specialises in the management of all dermatological problems along with the sexually transmitted infections and leprosy. Currently it has also started facilities in the field of Cosmetology and Dermatotomy for better care and cure as a step towards healthier skin.

Dentistry

The objective here is to advance oral health through excellence and innovation in education, patient care and research, so as to prepare students to be competent oral healthcare professionals by expanding their knowledge and understanding through research programmes. The aim is to allow them to serve the community by administering excellent oral healthcare treatments to a diverse population.

ENT

The department of ENT is equipped with contemporary equipment. It is manned by an experienced, dedicated and highly competent faculty. Round-the-clock attendance of all emergencies pertaining to the speciality is carried out most diligently. State-of-the-art equipment including flexible fiber optic endoscopy adds to the department's advantage. We value the confidence the patient has in us and we attend to each and every case with utmost care. The department has progressed over time and has successfully treated a significant number of patients for head and neck surgery apart from the routine ENT cases. Surgeons at the Department of Otorhinolaryngology (ENT) periodically carry out reconstructive surgeries with excellent results. Also, laser tonsillectomy and laryngeal stenosis, which need special care, are treated and managed at the centre.

Ophthalmology

Ophthalmology is a branch of medical science that deals with the anatomy, physiology and diseases of the eye. An ophthalmologist is a specialist in medical and surgical eye diseases. The department of Ophthalmology of IQ City Medical College Hospital is well-equipped with best-in-class equipment and ensures good exposure to the students in this field. The department boasts of advanced facilities to conduct absolute examination, diagnosis as well as the treatment of each ocular disease, encountered in paediatric patients and adults. Academic activities include academic rounds, teaching programmes, research activities, lectures and ward case discussions.

Anaesthesiology

Department of Anaesthesiology supports a variety of surgeries, including general surgery with lab surgeries, orthopaedics, urosurgery, paediatric, plastic, neuro and cardiac surgery. It uses state-of-the-art technology and science and has multi-modular monitors, newer anaesthetic medicine and drugs, difficult airway equipment and other methods that provide excellent training opportunities.

Radiology

In the present day of evidence-based, medicine a high-end department of Radio-Diagnosis is essential for diagnosis and interventional techniques. The department of Radiology in IQ City Medical College Hospital is very well-equipped with the latest equipment and has an experienced faculty as well as staff that are ready to deliver quality patient care. In addition to a total of 12 advanced static/Fluoroscopic and portable X-Ray machines, there are four Philips Ultrasound machines including 4D, 3D and Doppler studies. It has a latest 1.5 Tesla MRI machine, a Philips 128 slice CT scanner capable of HRCT, coronary and other angiographies and various 3D reconstructions. C-arm for Angiography is also there in the Cardiology Section. The department also undertakes advanced procedures like Radio Frequency Ablations, image guided therapy and procedures, TIFA and fetal echocardiography.

Emergency

When an emergency happens, saving time saves lives. That's why IQ City Medical College Hospital has a Casualty and Emergency Department designed to treat in minutes, not hours. The moment a patient arrives, he is assessed and sent to the right level of care. The department handles a wide range of illnesses and injuries from cuts and broken bones, to acute stroke and heart attacks. Specialised teams respond immediately to traumas, strokes, and heart attacks, with round-the-clock access to surgery, digital X-ray, CT, MRI and other emergency services with advanced cardiovascular care 24/7.

Amenities and facilities

- Classrooms
- Laboratories & Skill Lab
- Boys Hostels
- Girls Hostels
- Gymnasium
- Cafeteria, Food Joint and Hang-out Zone
- Library
- Recreational Zone
- Lecture Theatre
- Outdoor Gaming Facilities
- Xerox / Scanning facility on payment basis

Classrooms

The five spacious air-conditioned classrooms with gallery type seating and multiple teaching-learning modes ensure optimum delivery of competency based Medical Education.

Laboratories

Students receive constant faculty guidance while learning the realities at the labs. The college has fully equipped laboratories in all pre and para clinical departments and research laboratories in every department.

Skill Lab

The modern doctor provides effective care by using highly technical investigative and therapeutic tools as part of medical, surgical and radiological procedures. The SKILLS LAB provides a safe environment for students to learn, practice and be observed performing skills in a simulated environment thus mitigating the risks involved in direct patient exposure without adequate preparation and supervision.

Boys' Hostel

The Institution has modern and separate hostel facilities for the boys.

The hostel facilities include

- Spacious rooms available in AC and non-AC categories
- Air-conditioned 25-seater study room
- 24/7 Power backup
- 24/7 Security service
- 24/7 Lift service
- WiFi enabled
- Recreation zone with television and music systems
- Common room with indoor games like table tennis, carom etc
- Visitors' room

Girls' Hostel

The rooms are airy, completely safe and offer privacy. So that students feel right at home here.

The hostel facilities include

- Spacious rooms in AC and non-AC categories
- Air-conditioned 40-seater study room
- 24/7 Power backup
- 24/7 Security service
- 24/7 Lift service
- WiFi enabled
- Recreation Zone with television and music systems
- Common room with indoor games
- Visitors' room
- Laundry service

Cafeteria

The college has a spacious cafeteria facility. Here a variety of high-quality food and snacks are provided to the college students and staff. It has a large kitchen with staff that serves nutritious and hygienic food with great care. Meals are served four times a day and they include breakfast, lunch, evening snacks and dinner.

The canteen functions between 7:30 AM and 10:00 PM. It serves food to the day scholars, staff and those who are staying at the hostels. It maintains the following standards

- Good hygiene
- Great taste and excellent quality food
- Great ambience
- Affordable prices

Gymnasium

The Institution has facility equipped for physical exercise and activities. These facilities include equipment such as weights, treadmills, stationary bikes, and other exercise machines for the Student's good health.

Library

Area 2400 sq metre

Books more than 11,500

Journals National 815, International 868

Back volumes National 170, International 120

Learning CDs 590

Air-conditioned reading rooms with the following seating capacity:

Internal Reading Space 250

External Reading Space 250

PG Students' Reading Space 40

Residents' Reading Space 40

Faculty Reading Space 40

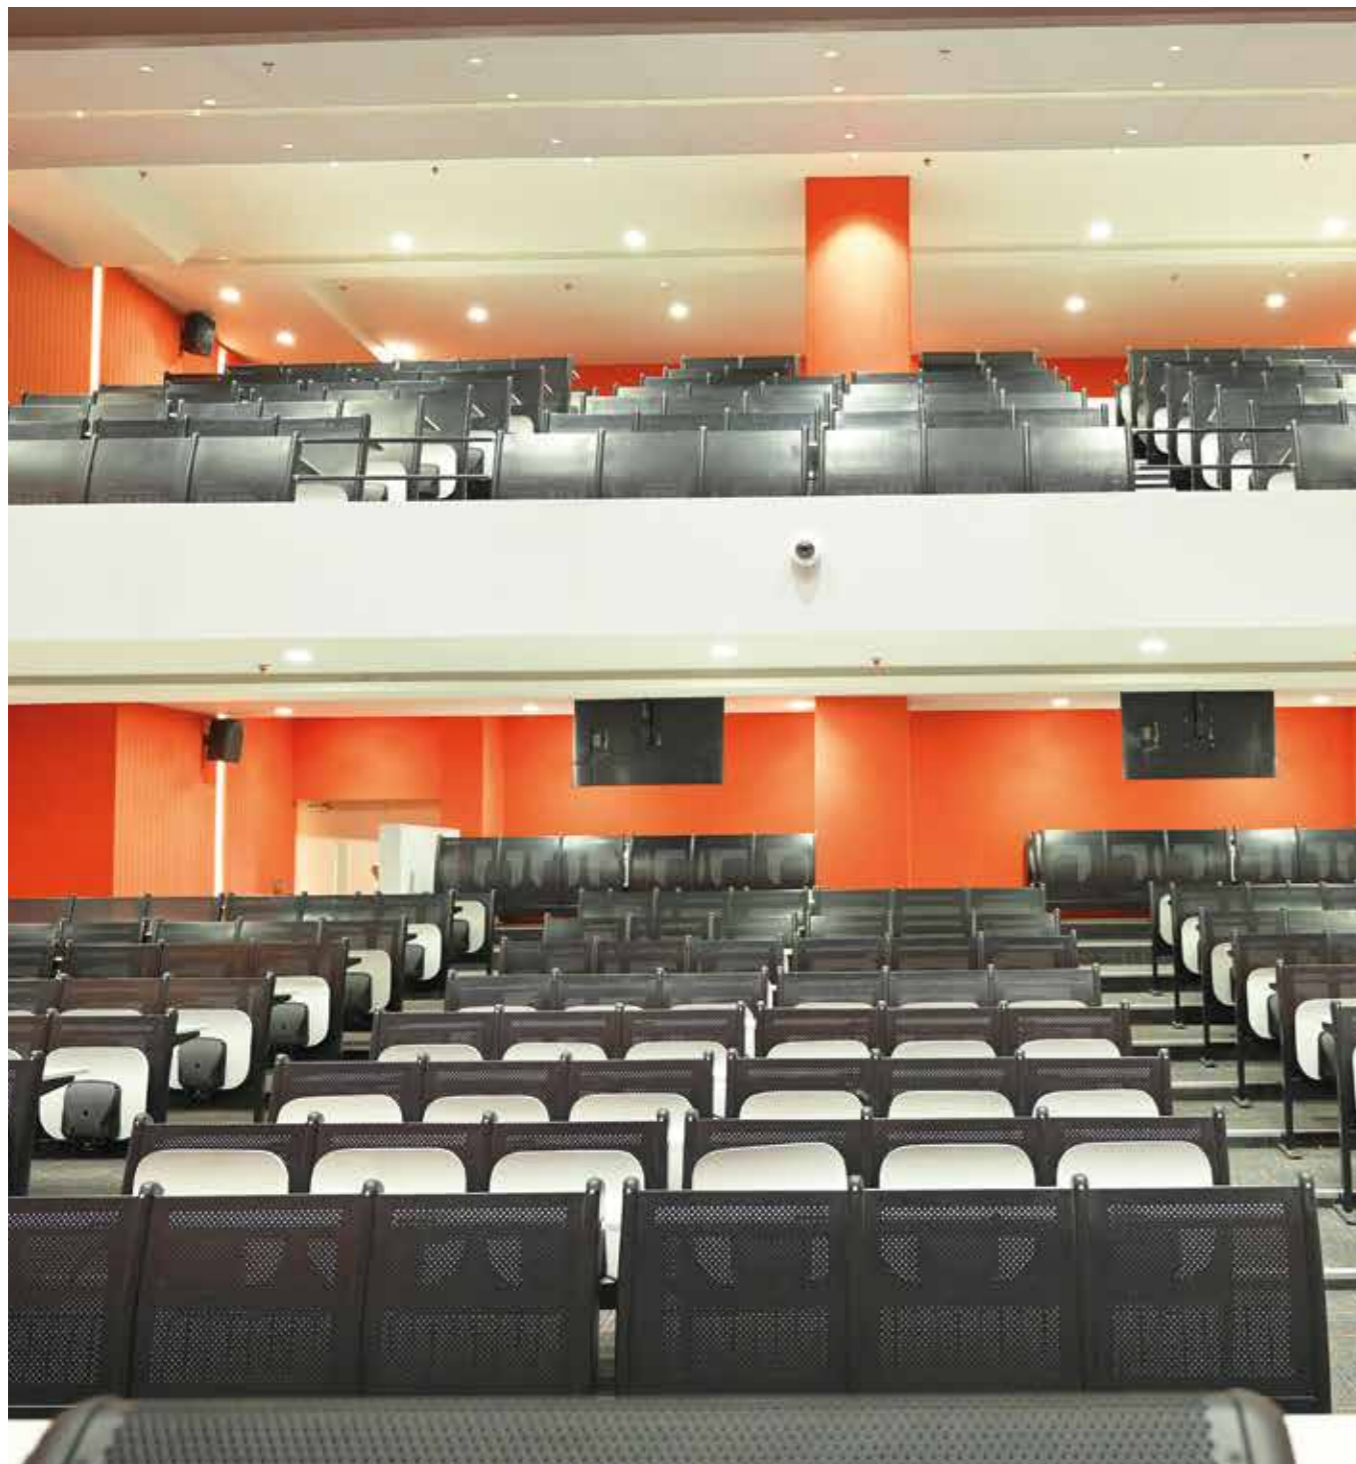

Recreational Zone

The Institution has spaces where students can engage in various recreational activities for relaxation, entertainment, and socializing.

Lecture Theatre

IQ City Medical College auditorium is designed to accommodate a range of academic and extracurricular activities, providing a conducive environment for large gatherings such as seminars, workshops, conferences, and cultural events. It features state-of-the-art audio-visual systems, including high-definition projectors, large screens, and surround sound systems, ensuring clear and impactful presentations and performances. Modern lighting systems, including stage lighting and ambient lighting, are installed to create the right atmosphere for different types of events. The seating is arranged to provide maximum comfort and visibility, with tiered seating ensuring that everyone has a good view of the stage. The auditorium is also equipped with necessary safety measures, including fire safety systems, emergency exits, and security personnel.

Outdoor Gaming Facilities

IQ City Institute of Medical Sciences provide facilities for all outdoor games such as Cricket, Volly Ball, Basket Ball, Throw Ball, Athletics etc.

Emphasis is laid on the overall development of the students. Annual sports day is conducted and the students honoured. A number of opportunities are provided for the students to develop their physical skills and talents.

IQ City Medical College offers guest house facilities for the convenience of students' guardians and relatives, ensuring a comfortable stay for visitors. All rooms are well-furnished with modern amenities to ensure a comfortable stay for visitors. Room options may include single, double, triple and family rooms to cater to different needs. It has strategically located within the campus and near to medical college building. Rooms are equipped with essential amenities such as air conditioning, Wi-Fi, television, clean linens, and attached bathrooms with hot and cold water supply.

OTHER FACILITIES

Students are encouraged to go beyond academics.

Many facilities are made available for students who want to refresh their minds and keep themselves physically fit. The students are provided the following indoor and outdoor facilities

Guest house

Transportation

Retail Square

Worship Area

Hospital Help Desk

Bank and ATM

Departmental store

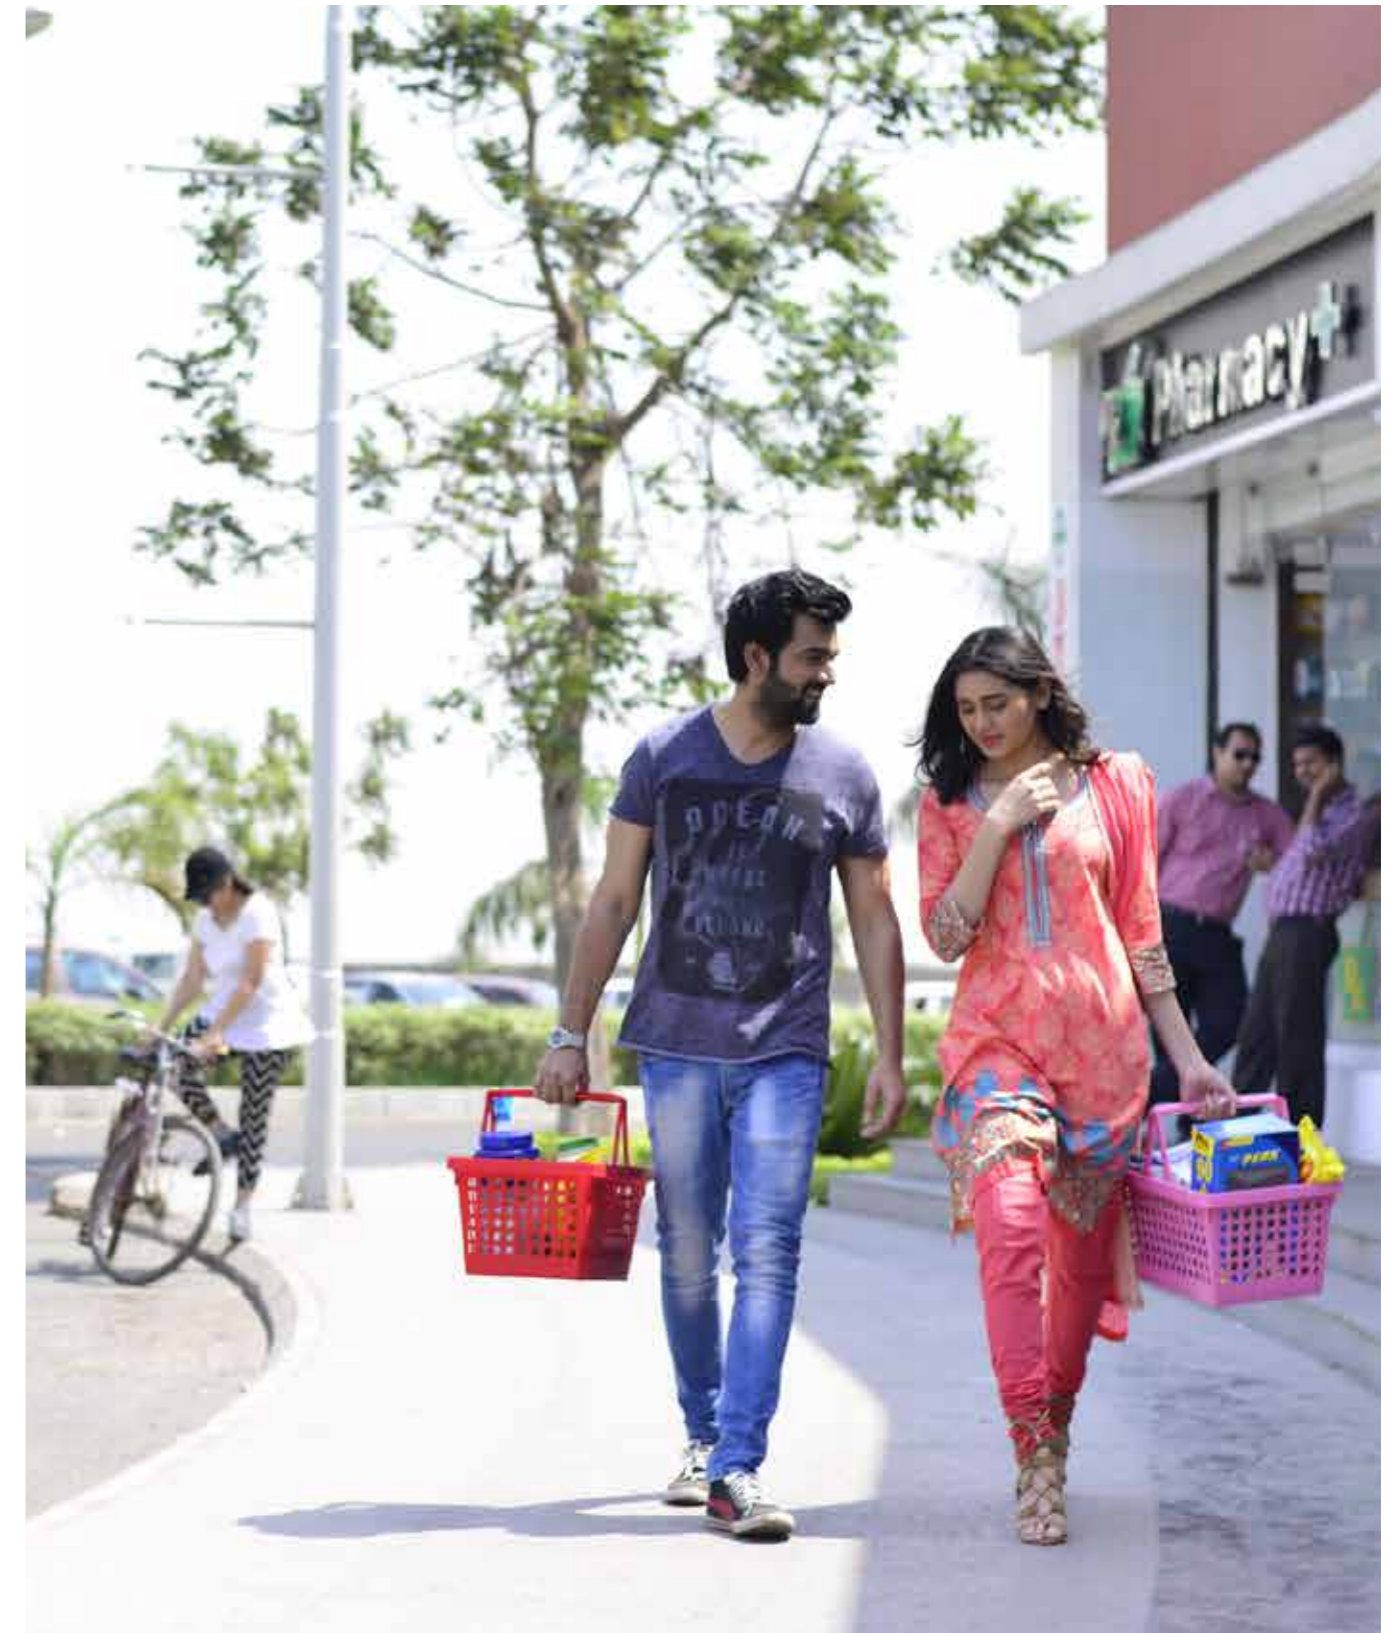

Urban Health Training Centre

Rural Health Training Centre

Transportation

Students have access to pick-up and drop-off facilities! Offering transportation services can significantly contribute to the convenience and safety of students, especially if they live off-campus or need to travel to different locations for classes or extracurricular activities.

Retail Square

IQ City Medical College provides a retail square facility within the campus to cater to the daily needs of students, staff, and visitors. This facility is designed to offer convenience and accessibility for essential goods and services. The retail square includes convenience stores stocked with a variety of daily essentials such as groceries, snacks, beverages, toiletries, and personal care items, ensuring students can easily access what they need without leaving the campus.

Worship Area

IQ City has its own worship area with wonderful idea that promotes inclusivity and harmony. It is a multifaceted worship space where individuals from various faith backgrounds can come to practice their beliefs is a commendable endeavor.

Hospital Helpdesk

A dedicated and empathetic Hospital Helpdesk with audio facilities helps us serving queries from the patients' families. Better communication helps us building lifelong bonds with patients and their family. The Hospital Helpdesk assists in troubleshooting, solving problems and answering questions. The exhaustive and detailed system helps in digitising and simplifying the whole process of patient registration. The staff monitors efficient running of the course of activities.

Bank and ATM

ATMs and banking services from State Bank of India is available to provide financial convenience, allowing students and staff to perform banking transactions and access cash easily.

Departmental Store

The departmental store offers a wide variety of products, including groceries, fresh produce, snacks, beverages, personal care items, cleaning supplies, and household essentials. The store stocks stationery, textbooks, notebooks, and other academic materials that students require for their studies, providing a one-stop shop for both everyday and academic needs. It located within the campus, the store offers great convenience to students, saving them time and effort in procuring daily necessities. The store operates with flexible hours to accommodate the busy schedules of students, allowing them to shop at their convenience, including evenings and weekends.

Urban Health Training Centre (City Centre)

Established in 2014

Distance from IQ City 7 km

Area covered 14 localities

Total population covered 35,000

Workdays 6 days a week, 9:30 AM to 4:00 PM

Specialist visits once a week each from the Ophtalmology, ENT, Obstetrics & Gynaecology and Paediatrics departments

Referral patients are referred to IQ City Hospital for investigation/admission

Rural Health Training Centre (Baidyanathpur)

Location: Baidyanathpur

Distance from IQ City 28 km

Area covered: 7 villages

Total population covered: 11661 (approx)

Workdays 6 days a week

Specialist visits once a week each from the Obstetrics & Gynaecology, General Medicine, General Surgery, Orthopaedic, Paediatrics, Ophthalmology, ENT and Dental departments

Health awareness camp on Observance of National Programmes and World Health Days

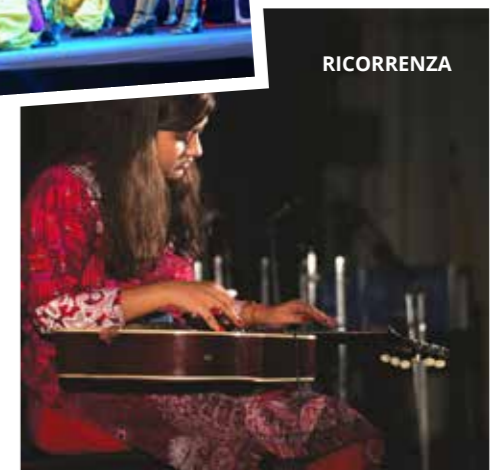

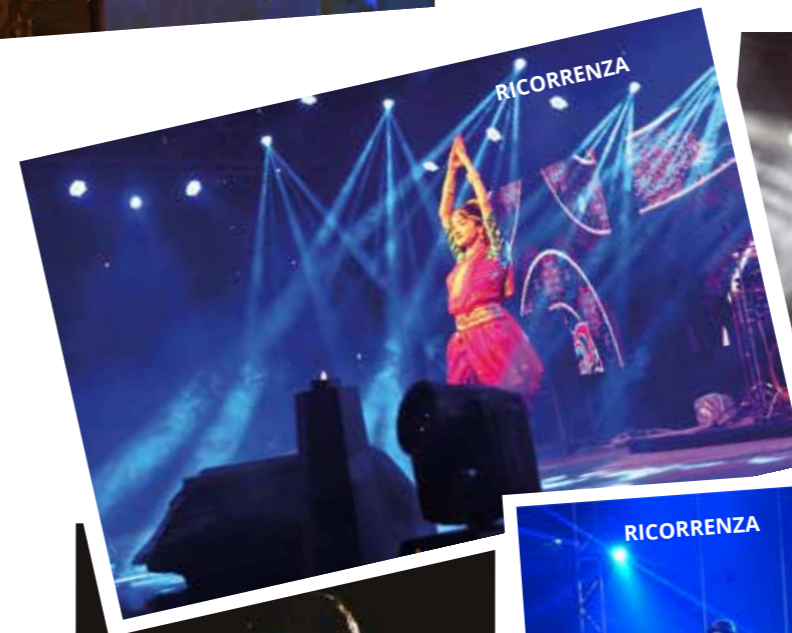

Field visits by MBBS, PG, Nursing professionals
